1 PRODUCT AND COMPANY IDENTIFICATION

Manufacturer

PROFILE Products, LLC
750 LAKE COOK ROAD
SUITE 440
BUFFALO GROVE, IL 60089

Contact:

Telephone Number: (847) 215-1144
FAX Number: (847) 215-0577
E-Mail: profileproducts.com
Web: www.profileproducts.com

Product Name: Contact
Revision Date: 5/13/08
MSDS Number: LIM018
CAS Number: Not applicable

2 HAZARDS IDENTIFICATION

Route of Entry:

Target Organs:

Inhalation: Dust may induce coughing and produce a respiratory allergenic response and/or irritation in some individuals.
Toxic Effect if inhaled: None

Skin Contact: Non-irritating, but contact may cause slight transient irritation.
Skin Absorption: Non-toxic

Eye Contact: Small dust may cause mild irritation to the eyes but high concentration of the dust may cause eye injury which may last for a few days.

Ingestion: Practically non-toxic - LD 50 (rats) > g/kg.

NFPA-ratings (scale 0-4): Health = 0, Fire = 0, Reactivity = 0

Based on medical study of exposed workers, some individuals may develop a respiratory allergenic response. Person with a history of respiratory allergies may have those conditions aggravated by exposure.

3 COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients:

Cas #	Perc.	Chemical Name

4 FIRST AID MEASURES

- Inhalation:** In case of exposure to a high concentration of dust, remove or move person to fresh air.
- Skin Contact:** Remove contaminated clothing and wash contact area with warm water and later cold water for 10 minutes.
- Eye Contact:** Wash/Flush with plenty of water for 10 minutes and seek medical attention if irritation persists.
- Ingestion:** If swallowed appreciable quantities, seek medical attention.

5 FIRE FIGHTING MEASURES

Carbon dioxide or dry chemical for small fire; aqueous form or water for large fire.

Wear self-contained breathing apparatus and complete personal protective equipment when entering confined areas where potential for exposure to vapor or products of combustion exists.

All carbohydrate and dry chemicals a potential dust explosion hazard exists if dust concentration in air is too high. Good housekeeping procedures are required to reduce this hazard.

6 ACCIDENTAL RELEASE MEASURES

Dry powder should be swept or scooped-up and collected for disposal. Avoid creating dust clouds and breathing the dust. Caution: Wet material is slippery.

7 HANDLING AND STORAGE

Handling Precautions:

Storage Requirements: Store in cool, dry area. Keep container closed to avoid moisture pickup. Avoid creating dust clouds and breathing the dust while handling.

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls:

Protective Equipment:

Respiratory Protection: Wear approved dust/air-line respirator whenever exposure to dust is likely and in inadequately ventilated area.

Exhaust: Recommended when appropriate to control employee exposure.

Mechanical: Not recommended as the sole means of controlling employee exposure.

Protective Gloves: Wear impervious gloves.

Eye Protection: Wearing safety glasses is a good practice.

Other Protective Equipment: For operations where contact can occur, a safety shower and eye wash facility should be available.

9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Off white powder	Boiling Point:	N/A
Physical State:		Freezing/Melting Pt.:	N/A
Odor:	bean like odor	Solubility:	
pH:		Spec Grav./Density:	1.3
Vapor Pressure:			
Vapor Density:	N/A		

10 STABILITY AND REACTIVITY

Stability:	Stable product
Conditions to avoid:	Fire, excessive heat
Materials to avoid (incompatibility):	
Hazardous Decomposition products:	Produce fumes when heated to decomposition may include carbon monoxide, carbon dioxide.
Hazardous Polymerization:	Will not occur

11 TOXICOLOGICAL INFORMATION

12 ECOLOGICAL INFORMATION

13 DISPOSAL CONSIDERATIONS

Dispose of in accordance with Federal, State and Local regulations.

14 TRANSPORT INFORMATION

DOT Class: Not regulated #

15 REGULATORY INFORMATION

COMPONENT / (CAS/PERC) / CODES

REGULATORY KEY DESCRIPTIONS -----

MASS = MA Massachusetts Hazardous Substances List
NRC = Nationally Recognized Carcinogens
OSHA WAC = OSHA Workplace Air Contaminants
PA = PA Right-To-Know List of Hazardous Substances
TXAIR = TX Air Contaminants with Health Effects Screening Level

CERCLA = Superfund clean up substance
CSWS = Clean water Act Hazardous substances
EHS302 = Extremely Hazardous Substance
EPCRAWPC = EPCRA Water Priority Chemicals
HAP = Hazardous Air Pollutants
NJEHS = NJ Extraordinarily Hazardous Substances
NJHS = NJ Right-to-Know Hazardous Substances
OSHA PSM = OSHA Chemicals Requiring process safety management
SARA313 = SARA 313 Title III Toxic Chemicals
