

Orchard Hill Stone™

Capturing the beauty of a natural stone wall, Orchard Hill Stone™ is a unique multi-unit wall system that redefines landscaping. Its simplicity and natural appeal make it the perfect application for any outdoor living space. It also offers the same flexibility and ease of installation that has made Rockwood® the leading choice for contractors and homeowners alike. Featuring a rear lip on the bottom of each unit, Orchard Hill Stone ensures exact alignment as each course is constructed.

Orchard Hill Stone™

The Advantages of the Orchard Hill Stone™ System...

It's Fast...

Orchard Hill Stone™ is a mortarless and pinless wall system. A rear lip located on the under side of each unit ensures precise alignment and setback, eliminating guesswork and making installation easy.

It's Simple...

Each unit weighs between 6 and 20 lbs., making Orchard Hill Stone as easy to handle as it is to install. Its size makes it perfect for any weekend project including, but not limited to, terraced gardens, tree rings, and low retaining walls.

It's Strong...

Consisting of high quality concrete, Orchard Hill Stone stands up to the elements. Plus, when filled with gravel, the cores make strong, vertical "stone columns" that create a maintenance free wall for years to come.

It's Versatile...

Offering greater design flexibility, Orchard Hill Stone is a multi-unit system that features a natural stone appearance. The three units can be arranged to create a variety of natural and unique wall patterns.
